

MISSION: Lifeline™

➔ Administrative Structure

Mission: Lifeline Administrative Structure

*Mission: Lifeline Advisory
Working Group*
Chair: Christopher Granger, MD

*Mission: Lifeline ECC
Task Force*
Chair: Graham Nichol, MD

*Mission: Lifeline Science Task
Force*
Chair: James Jollis, MD

Committee Roles and Responsibilities

- The Advisory Working Group provides strategic direction and oversight, approves action plans for M:L implementation and establishment of local initiatives, develops and publishes M:L criteria for M:L center and the national STEMI referral center and STEMI receiving center certification program.
- The ECC Task Force provides oversight on EMS System Assessments and the improvement portion of the Association's Mission: Lifeline Initiative. The Task Force is also responsible for the development of an EMS improvement plan for Mission: Lifeline.
- The Science Task Force develops the M:L publication strategy, reviews all M:L products and materials, evaluates STEMI system related data and oversees approval of all M:L performance achievement award applications.
