EMS Agency	EMS Incident No.	Receiving Hospital	Alert Declared Time (optional)

ECG Confirmed	Potential Confounder	Comments & Outcome Feedback (optional)

STEMI – For the purpo
to the evaluation of the
the agreed upon defini
Lifeline group has agre
STEMI:

- Signs / Sympto
  ST segment ele
  continuous leac

- Excluded are in
  isolated to V1 –

purposes of this project, STEMI refers only
of the 12 lead ECG to determine if it meets
definition. The CATRAC Regional Mission
s agreed upon the following definition for

mptoms of Acute Coronary Syndrome AND
nt elevation of 1 mm or more in two
s leads

are inconclusive ST elevation, elevation
V1 – V2 only, and LBBB
