

CATRAC Mission: Lifeline AR-G Survey

1. Has your hospital signed the contract with NCDR in order to participate in the Action Registry- GWTG?
2. Has your hospital identified the staff person who will be doing the data entry for AR-G?
3. Are you entering Acute MI patients into the data registry?

Y/N

4. If yes:

When did you start entering your data into the registry? _____

Are you entering a PORTION of your AMI patients into the data registry? Y/N

Are you entering ALL of your AMI patients into the data registry? Y/N

5. If no:

Anticipated date for entering AMI patients into the registry? _____

Reasons for not entering patients into the data registry:

Please check all that apply.

- Do not have access to the records
- Do not have staff resources to enter the data
- Staff needs training
- The cost of the data registry is prohibitive (1,800 dollars per facility per year starting in Jan. 2011 and 1,000 dollars sign up fee if hospital is not currently participating in any of the other NCDR registries (ICD Registry, CARE Registry, CathPCI Registry, and IMPACT Registry))
